

**Table 15: Comparison of Impacts on Selected Variables**  
**Two Methods of Impact Assessment**

		<b>OLS and Logit<sup>3</sup></b>		<b>PSM</b>	
<i>Variables</i>		<i>Effect</i>	<i>Significance</i>	<i>Effect</i>	<i>Significance</i>
MDG 1	Agricultural sales to third party	+	***	+	no
	Amount of pesticide use	+	***	+	**
	Value of farm equipment	+	***	+	***
	Value of livestock	+	***	+	**
	Sales of livestock and products	+	no	+	***
	Profit from livestock	+	no	+	***
	Sales from microenterprise	+	***	+	no
	Profit from microenterprise	+	***	+	no
	MDG 2	School expense per child	-	no	-
MDG 3	Women have say in children's schooling	+	***	-	no
	Women have say in healthcare	+	**	-	no
	Incidence of domestic violence			+	no
MDG 4-6	Seek medical treatment when sick	+	**	+	**
	Have funds to pay for medical treatment	+	**	+	**
	Children vaccinated	+	no	+	no
	Health expenditure per capita	+	**	-	no
MDG 7	Amount of pesticide use	+	***	+	**

Notes: "OLS and Logit" results of "Sales from microenterprise" and "Profit from microenterprise" are for urban sample.

\*\* and \*\*\* indicate significance level of 5 and 1% respectively.
